A part of the net assets may be invested in the Tri Party Repo (TREPS).
3.	The Scheme will pay reasonable administrative and custodial fees in connection with the lending of Securities. The Scheme will be exposed to the risk of loss should a borrower default on its obligation to return the borrowed Securities. The Scheme will not lend more than what is permitted under applicable SEBI (Mutual Funds) Regulations. For detailed understanding on Securities lending by the Scheme, Investors are requested to refer to the SA1.	The Scheme will not lend more than what is permitted under applicable SEBI (Mutual Funds) Regulations. For detailed understanding on Securities lending by the Scheme, Investors are requested to refer to the SA1.

Rest of points under the Asset Allocation Table remain the same and have been given in detail in the communication to be sent to the Unitholders of the Scheme.

- Risk Factors Associated with Investments in REITs and InvTs:**
- **Interest-Rate Risk:** REITs & InvTs carry interest-rate risk. Generally, when interest rates rise, prices of existing securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
 - **Market Risk:** REITs and InvTs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.
 - **Risk of lower than expected distributions:** The distributions by the REIT or InvT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/INVIT receives as dividends or the interest and principal payments from portfolio assets. The cash flows generated by portfolio assets from operations may fluctuate based on, among other things:
 - success and economic viability of tenants and off-takers
 - economic cycles and risks inherent in the business which may negatively impact valuations, returns and profitability of portfolio assets
 - debt service requirements and other liabilities of the portfolio assets and fluctuations in the working capital needs
 - ability of portfolio assets to borrow funds and access capital markets
 - amount and timing of capital expenditures on portfolio assets
 - **Liquidity Risk:** This refers to the ease with which REIT/InvT units can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities for which a liquid market exists.
 - **Reinvestment Risk:** Investments in REITs & InvTs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.
 - **Price-Risk:** The valuation of the REIT/InvT units may fluctuate based on economic conditions, fluctuations in markets (eg. real estate) in which the REIT/InvT operates. As an indirect shareholder of portfolio assets, unit holders rights are subordinated to the rights of creditors, debt holders and other parties specified under Indian law in the event of insolvency or liquidation of any of the portfolio assets.

The above are some of the common risks associated with investments in REITs & InvTs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.
